

# Composite Garden Sheds - Price List

Each fully insulated and secure composite garden shed offers an elegant modern solution for a home office, gym, hobby or craft room or simply secure storage.

Designed to last a lifetime without worrying about deterioration, rot, rust, damp, maintenance and easy theft. Store your valuable possessions safely and securely or use as an outdoor work or leisure space.

Our premium composite garden sheds are constructed using heavy timbers externally clad in composite maintenance free materials.

Each roof is constructed using fully insulated 40mm PIR aluminium profiled trapezoidal roof panels.

The insulated interlocking roof panels are supplied Anthracite (dark grey) on the outside and white on the inside.

All our composite sheds are lined with an oriented strand board (OSB) and the floor is covered with industrial grade moisture resistant tongue and grooved timber floor board.

With fully insulated walls, roof and floor complete with a waterproof vapour barrier wrap and breathable walls the inside will be damp, mould and condensation free.

For security and sheer luxury each garden shed is supplied with a dark grey (anthracite) PVCu single patio door complete with double glazing and insurance approved locks.

A range of PVCu opening windows and fixed glass window panels are available as an optional extra.

Our composite garden sheds offer the perfect storage solution for expensive items such as motorcycles, electric and mountain bikes, lawnmowers, DIY tools, garden furniture and personal items such as golf clubs, fitness equipment etc. Our unique design and construction will keep all your valuable items safely secure, water tight and free from rot, rust, damp and the decay you would experience for a timber or plastic garden shed.
